

# Encore Energy, Inc. Announces Drilling and Production Plans for 2017

**Bowling Green, KY (January 26, 2017):** The Company announced its plans today for 2017. Encore Energy, Inc. is a fully integrated exploration and production company and currently the most active well operator in south central Kentucky. Encore makes its investment opportunities available only to SEC defined accredited investors pursuant to SEC Regulation D, Rule 506(c), who are sophisticated in making business and investment decisions. The US government allows qualified investors to deduct 100% of their investment against all forms of income, which typically results in a ~40 – 50% tax savings or investment subsidy.

Encore has made what it believes to be very significant oil discoveries from oil bearing carbonate formations, utilizing both conventional acid and non-conventional sand Frac treatments in south central Kentucky. The Company has recently announced plans to drill an initial four (4) well program in Cumberland County and has already drill two (2) additional wells in Warren County this month, and intends to begin drilling operations in Cumberland County by the 1<sup>st</sup> quarter 2017. Long-term, the Company plans to drill 75 – 100 wells in south central Kentucky with the objective of developing long-term production, reserves while shipping its crude oil directly to the

Continental Refining Company in Somerset, Kentucky.

“Encore is currently the most active operator drilling in south central Kentucky. Encore works directly with the very best qualified investors, landowners, drilling contractors, land personnel, well service companies, petroleum geologists and other industry experts to achieve the highest standards of excellence in Kentucky. Encore believes that the Company delivers a level of transparency and integrity matched by no other operator. We look forward to a prosperous, challenging and exciting 2017”, said Steve Stengell, Encore’s President - CEO.

No assurances can be made as it relates to production and/or reserves. Oil and gas exploration, development and production involves a high degree of risk, uncertainty, and is only suitable for SEC accredited investors who can afford the loss of his or her entire investment.

**Important Notice, Disclaimer and Cautionary Statement:** The information herein may contain forward-looking statements, and actual results may vary. Oil and gas investments involve a high degree of risk, uncertainty and are only suitable for qualified Accredited (SEC Definition) investors who are sophisticated in making business decisions and can bear the financial loss of their entire investment, while delivering a turnkey profit to the Company for proving the prospect development, lease acquisition, drilling, completion, engineering and ongoing production operations. The Company does not provide tax advice and investors should seek the advice of their tax professional. Any tax and/or other information herein is provided for illustration purposes only and may include estimates that are uncertain and subject to change. It is impossible to accurately forecast profitability, production, reserves, income, expenses and timelines for any project. No assurances can be made as it relates to reserves, production, income, profit, prices, timelines and/or other estimates. Actual production and results are beyond the control of management. In the event that commercial production is achieved, it may take many years for the investor to recoup his or her investment. The Company’s lease acreage position under is subject to change and includes acreage under lease, Farmout agreement, verbal agreement, renewals, expired terms and any other prospective acreage in which the Company has communicated and/or negotiated with the landowner the leasing of oil and gas rights, now or in the future, and the lease / mineral owner has leased or communicated their intent to lease there mineral lease rights to the Company. It is important for qualified investors to acknowledge the fact that the US government provides them with tax savings (100% IDC tax deduction) to mitigate or at least off-set some of the financial risk associated with domestic oil and gas investments. This is not an offer to sell or buy a security. An offer shall only be made pursuant to SEC Regulation D, Rule 506(c) by a private placement offering memorandum, and this is not a private placement offering memorandum.
